🔗 Portfolio

Technical Product Manager who writes PRDs on GitHub, builds prototypes on weekends, and deploys dashboards before asking engineering. Currently leading Enterprise Deals & Central Features at TestMu AI.

Education

BITS Pilani, Pilani Campus

2019 – 2024 | Pilani, Rajasthan

BE Manufacturing + MSc Chemistry (Dual Degree)

Experience

TestMu AI (Formerly LambdaTest)

03/2025 – Present | Noida

Technical Product Manager | Promoted from APM (Technical), 03/26

- **Product Ownership:** Own roadmap, capacity planning, and delivery for HyperExecute (cloud test orchestration) platform, a **\$6M+ ARR** product line.
- **GTM:** Lead pricing, launches, customer discovery calls, and marketing funnels for 4 major product launches.
- **Enterprise Portfolio:** Drive 6+ simultaneous **\$100K+** enterprise deals across Fortune 100 tech, with cross-functional alignment. Manage a Fortune 50 bank's **on-prem deployment** releases, authored technical specs, drafted cost-benefit analysis and coordinated with stakeholders.
- **AI-Native PM & Internal Tooling:** Built and deployed a **live KPI monitoring dashboard** (Replit) tracking customers, job volumes, infra failures, and bug severity. Use **Claude Code** to ship interactive prototypes and PRDs in 48-hour iteration cycles.

Pixxel Space

08/2023 – 02/2025 | Bengaluru

Associate Product Manager

- **Platform Development:** Led 0-to-1 development of an enterprise-grade SaaS platform for Earth Observation, serving customers across agriculture, mining, and climate tech.
- **Billing, Subscription & IAM:** Designed and implemented the platform's billing and IAM system, defining pricing models, organization structure and integrating with open-source software and Stripe.
- **AI & Machine Learning Models:** Onboarded & orchestrated the entire user journey of **10+ ML models** on the platform, conducting market research, and overseeing implementation.
- **Ownership:** Designed the highest-revenue product line (satellite tasking dashboard & API ordering), unblocking a **\$500k pipeline**.
- **Reporting Automation:** Streamlined investor reporting by automating monthly reports, saving **15+ hrs/month**. Deployed Metabase + Grafana dashboards for real-time visibility into KPIs.
- **Compliance:** Drafted and implemented the EULA and privacy policies, addressing regulatory requirements.

Leadership

President

08/2021 – 09/2022 | BITS Pilani

Society of Student Mess Services

- Managed **~\$3.5M annual budget, 137 employees**, and operations across **9 canteens for 5500+ students**.
- Introduced nutrition-focused menus and launched new canteens, generating **~\$120K additional revenue**.

Entrepreneurial Projects

FoodInsta

03/2021 – 08/2021

Social Entrepreneurship App

- **Finalist (Top 19 / 1500+)** at 3M-CII Young Innovators Challenge 2021.
- Built MVP aimed at UN SDG 2 & 3. Ideated workflow, created Figma designs, and developed Proof of Concept.
